Assistant Professor, Department of Psychology, Govt. Kaktiya P.G. College, Jagdalpur (C.G.) India

ABSTRACT

Present paper studies Youth problem a Comrative Study to Major Youth Problem among College Student on Basic of Locality. Inside the research 2x2 factorial, designs will be used. It will be going to study youth problem of dependent variable. Gender (males, females -2) and locale (urban, rural-2) two levels will be independent variables, as to rural college student was establishing to comprise additional youth problem as compared to rural and urban college Students significance difference, While Sex Wise Significant Deference.

KEYWORDS: Youth Problem, College Student, 2x2 Factorial Designs, Youth

INTRODUCTION

In words of James” Youth is the joy, the little bird that has broken out of the eggs and is eagerly waiting to spread out its wings in the open sky of freedom and hope.”

ROLE OF YOUTH

The role of youth is of most magnitude in today’s time. It has underplayed itself in field of politics. It should become aspiring entrepreneur rather than mere workers. It can play a vital role in elimination of terrorism. Young participation is important because youth are the country’s power. Youth recognize problems and can solve them. Youth are strong forces in social movements. They educate children about their rights. They help other young people attain a higher level of Intellectual ability and to become qualified adults.

PROBLEMS

Unfortunately no one is bothered to dream any s vision. Martin Luther has said, "I have a Dream" and the dream come largely true. If he had not thought of that dream he would have accomplished nothing in his life. Another problem is its indifferent attitude towards things, situation and politics .The new cool formula of “let the things be “is proving fatal to India’s development .Lack of unity and spirit is the major setback . It’s time the youth, the students have to realize their power, their role, their duties and their responsibility and stand up for their rights. Now it’s time that instead of brain drain we should act like magnets and attract world to India.

REVIEW OF LITERATURE

Uma, R. (2014). Studies on this identification analyze the rural to urban relocation opportunity and challenge in the study region. Primary data of this paper is bring together as of manvi taluk of Raichure district, at this time we locate that 95% of the laborers are migrate since of recurrent being without a job, 98.2% laborers were exposed that deficiency is

the cause to journey and most of the migrant be in the right place to the marginalized cluster of the civilization. a good number of the respondents fall into the young age collection stuck between 15 to 30 years, 99.6% refugee labourers income has greater than before due to recurrent relocation. The spending of every refugee greater than before whereas 92.0% labourers' investments have also greater than before. And the quantity of money owing has decrease outstanding to add in the direction of inside their takings.

Paul et.al (2014).Studies on their study aims to be acquainted with the attitude of youth towards research in Thiruvannamalai district of Tamil Nadu. The investigators adopt normative review as a research technique and adopt simple random sampling technique to describe 300 samples from a variety of colleges. The answer of the study make known that youth are have positive attitude towards research and the research attention of urban area youth is better than the rural area youth

OBJECTIVE

- To Study the effect of, locality in problem of youth.

Hypotheses

- The student of rural area having more problem than urban area.
- The student of urban area having more problems than rural area.

METHODOLOGY

Sample

The sample selected will be purposive; it will be selected incidentally from differenced govt. colleges and private colleges of rural and urban areas. 150 boys and 150 girls will be chosen on the base of their ease of use their age ranges from 19 yrs to 24 years and education ranges from under graduate to post graduate from arts, science, commerce, engineering, and management and computer faculties.

Design

In the present research 2x2 factorial designs will be used. It will be available to study mental youth problem of dependent variable. Gender (males, females -2) and locale (urban, rural) two levels will be independent variables.

Tool

Youth problem inventory Badami having 265 items and 6 dimensions will be used.

Process

Data was collect in small group of five following establish understanding by means of them.

**Table 1: Study on Subject for Selection by Sample Size
Locale and Gender College Student**

Gender	Locale		Total
	Rural	Urban	
MALE	75	75	150
FEMALE	150	150	300

RESULT DISCUSSIONS

Table 2: Mean Score by Rural and Urban College Student in Mean Difference

Gender	Locale		Total
	Rural	Urban	
Male	87.96	58.60	63.28
Female	59.97	36.13	53.07
Total	59.97	47.37	53.07

Mean score by indicated rural youth Male was (87.96) and female was (59.97), Urban youth Male was (58.60) , female was (36.13) shown significant difference between rural and urban youth.

Table 3: Analysis of Variance Youth Problem as Locale and Gend

Source	Sum of Source	df	ms	F	Sig
Gender	27705.63	1	27705.63	44.22	.01*
Locale	11919.6	1	11919.6	19.02	.01*
Gender* locale	790.563	1	790.563	1.26	NS
error	185430.53	296	626		
Total					

Analysis of difference rural and urban youth is significant difference among gender and locale. Interaction effect was insignificant effect show gender (Male, Female) Locale (Rural, Urba

DISCUSSIONS & CONCLUSIONS

The results of study were the issues between rural and urban youth. Living in the urban environment in which it was found that rural youth in their living differences were found among the young. Such significant difference was observed in our study found significant differences between rural and urban. The permanent assignment of operate is to reconstruct his globe, other than the human race actually belong to the formative years. The early life gives the brave man and the group who alter the earth from times to occasion. Other than it is a mystery so as to the youth do not stay behind young. He come of period and is regarding to give and take with the earth as it be The youth of days gone by engage himself in 'useful' mechanism and overlook the 'distinguished deeds' which he did and dreamt of as a youth.
