ABSTRACT

A study was conducted in 2012-13 in Amaravathy cooperative sugar mills, Udumalpet block, Tirupur District that has high area and production of sugarcane in Tamil Nadu with 150 non-registered cane growers to assess the adoption level of recommended technologies. The constraint experienced by the respondents in the sugarcane cultivation has been analysed.

KEYWORDS: Non-registered Cane Growers, Communication Constraints, Economic Constraints, Managerial Constraints, Bio-Physical Constraints and Infra-Structural Constraints
